## **Volunteer Canoe Tour Guides and Docents Needed for Delta Area State Parks**

BRANNAN ISLAND STATE RECREATION AREA: Volunteers, here is your opportunity to share your knowledge and appreciation of the Delta with others in a friendly, relaxed setting. The guided delta canoe tours offered in 2004 were so popular that the Delta Area State Parks are looking for more volunteer tour guides to help meet the demand.

Canoe Tour Guides receive training in canoeing, first aid, CPR, natural and cultural resource interpretation and how to lead a tour. After the training is completed, volunteers are expected to lead at least three tours per season. The spring season will be March through May.

The State Park is also looking for volunteer docents to help in the visitors' center, lead walks and hikes, lead school group programs and many other interpretive and educational functions.

The interpretive and educational programs at the Delta Area State Parks are co-sponsored by the California State Parks and the Delta Natural History Association, a non-profit organization.

For more information, call 916-777-7701.
